ISTRUZIONI DI MONTAGGIO E D'USO

- IT *Per tutte le operazioni di installazione e manutenzione utilizzare guanti da lavoro*
- EN *Always wear work gloves for all installation and maintenance operations*
- DE *Bei allen Installations- und Instandhaltungsarbeiten immer Schutzhandschuhe tragen.*
- FR *Munissez-vous de gants de travail avant d'effectuer toute opération d'installation et d'entretien.*
- NL *Draag bij alle installatie- en onderhoudswerkzaamheden werkhandschoenen.*
- ES *Todas las operaciones de instalación y mantenimiento se deben realizar utilizando guantes de trabajo.*
- PT *Para todas as operações de instalação e manutenção, utilize luvas adequadas para este tipo de atividade*
- GR *Πάντοτε να φοράτε γάντια εργασίας για όλες τις επεμβάσεις εγκατάστασης και συντήρησης.*
- SV *Använd alltid skyddshandskar vid installation och underhåll.*
- FI *Käytä asennus- ja huoltotöissä suojakäsineitä.*
- NO *Ved alle installasjonsprosedyrer og alt vedlikehold av ventilatoren må man bruke arbeidshansker*
- DA *Ved alle installations- og vedligeholdelsesindgreb skal der bæres arbejdshandsker.*
- PL *Wszelkie czynności montażowe i konserwacyjne wykonywać w rękawicach ochronnych.*
- CZ *Při všech instalačních a údržbových pracích používejte pracovní rukavice*
- SK *Pri všetkých inštalačných a údržbárskych prácach používajte ochranné pracovné rukavice.*
- HU *Valamennyi üzembe helyezési és karbantartási művelethez használjon védőkesztyűt*
- BG *за всички операции по инсталиране и техническо обслужване използвайте работни ръкавици.*
- RO *Pentru toate operațiile de instalare și întreținere utilizați mănuși de protecție.*
- RU *Для выполнения всех операций по установке и уходу используйте рабочие перчатки.*
- ET *Kasutage paigaldus- ja hooldustöödel kaitsekindaid.*

## Warnings

The appliance should not be used by children under 8 years of age and by persons with reduced physical, sensory and mental capabilities, or lack of experience and knowledge, unless they are supervised or have received instructions regarding the safe use of the appliance and are aware of the possible risks. Children must not play with the appliance. Any intended cleaning and maintenance by the user should not be carried out by children unless supervised. The hood should never be used without without the grid properly fitted! Never use the hood without the grill properly fitted!

The accessible components can overheat when the cooktop is in use.

The hood must not be connected to the flues of other appliances that run on gas or other fuels. When the hood is used at the same time as other appliances that run on gas or other fuels, provision must be made for an adequate supply of air. No food must be cooked flambé underneath the hood. The use of an unprotected flame could cause damage to the filters and could cause fires, so should be avoided. When frying food, never leave the pan unattended because the cooking oil could flare up. Please comply with the technical and safety provisions set forth by your local competent authorities regarding the ventilation of hoods.

This appliance conforms to European Directive 2002/96/EC, Waste Electrical and Electronic Equipment (WEEE). Please dispose of this product correctly in the interest of health and the environment.

The symbol  on the product, or on the documents accompanying the product, indicates that this appliance may not be treated as household waste. Instead it shall be handed over to the applicable collection point for the recycling of electrical and electronic equipment. Disposal must be carried out in accordance with local environmental regulations for waste disposal. For more detailed information about treatment, recovery and recycling of this product, please contact your local city office, your household waste disposal service or the shop where you purchased the product. If the power cable is damaged you should, in the interest of safety, contact the manufacturer or the manufacturer's technical assistance service to request a replacement, or ask someone who is similarly qualified.

Check also the drawings on the initial pages with the alphabetical and numerical references in the explanatory text. Closely follow the instructions in this manual. We cannot accept liability for any faults, detriment or fire damage to the appliance due to non-compliance with the manual's instructions.

**Y**ou should affix the hood to a wall of sufficient weight-bearing capacity, so not to one made of plasterboard.

**T**he cooker hood must be placed at a minimum distance of 65 cm from the cooking plane for electric cookers and 65 cm for gas or mixed cookers. If the instructions for installation for the gas hob specify a greater distance, this has to be taken into account. Do not tile, grout or silicone this appliance to the wall. Surface mounting only. Do not fix chimney flue to furniture or fly over shelves unless the chimney flue can be easily removed, in case maintenance is ever required.

**T**he cooker hood is provided with an upper air exit B for discharging fumes externally for models including chimney flue C ( Suction Version A- exhaust pipe not supplied). If cooking fumes and vapours cannot be externally discharged, the cooker hood can be used in the recirculating version F: the installation of 1 active charcoal filter F allows the recirculation of fumes and vapours through the upper grid G.

**M**ake sure that there is a power socket near the hood and that the system has a 30 mA differential. The mains voltage must be the same as that on the label inside the hood. The hood has a 1250 mm power cable with or without plug: if it does have a plug, connect the hood to an accessible approved socket; or if it does not (connection direct to the mains), fit an approved bipolar switch with a minimum contact opening of no less than 3 mm (accessible). This installation and electrical connection must be executed by a qualified technician.

**P**roduct performance test carried out in accordance with standard (EU) No 65/2014-  
Ref: IEC 61591  
Maximum performance is achieved by placing the mobile panels, if any, in the open position.

R5

A: Lights ON/OFF Button: the extractor hood lights are turned on and off by pressing the button.

B: Engine ON/OFF Button (4 speeds): the extractor is switched on by pressing the button. The extractor speed (power) can be adjusted using buttons "C" and "D".

C: Extractor Speed (power) Reduction Button: the extractor speed is reduced by pressing the button.

D: Extractor Speed (power) Increase Button: the extractor speed is increased by pressing the button.

F: Timer Button: the 5-minute timer is activated by pressing the button, whatever the speed selected; the timer is deactivated by pressing the same button again.

E: LED indicates the different speeds: green, speed 1; amber, speed 2; red, speed 3; blinking red, speed 4 (speed timer activated; it stays on for 7 minutes, then it automatically goes back to the last selected speed.)

**Do not use solvents to clean the control.**

## Maintenance

Prior to any maintenance operation ensure that the cooker hood is disconnected from the electrical outlet.

### Cleaning

The hood must be cleaned frequently both inside (apart from the area behind the grease filter) and outside. Use a cloth moistened with denatured alcohol or neutral liquid detergents. Never use products containing abrasives.

### Warning

Failure to carry out the basic standards of the cleaning of the cooker hood and replacement of the filters may cause fire risks. Therefore we recommend observing these instructions.

### Anti-grease Filter

must be cleaned once a month, with non abrasive detergents, by hand or in dishwasher on low temperature and short cycle. When washed in a dishwasher, the grease filter may discolour slightly, but this does not affect its filtering capacity.

### Charcoal Filter - (only for filter version)

The active charcoal filters F are not washable nor regenerative. It should be changed every 6 months in normal use. The active charcoal filters capture unpleasant cooking odours.

### Replacing lightbulbs

Warning! Prior to touching the light bulbs ensure they are cooled down.

### Led Light

If the lighting group LED does not work, please contact the technical service center in order to replace the whole group.

### Reducing environmental impact:

To reduce energy consumption, we recommend you always use the lowest suction speed among those suitable for the cooking mode currently active, avoid leaving the appliance running for more than 15 minutes after burner shutdown and switch off the lights if you leave the cooking area.
